

**HUBzero: Community test.  
Group for Baikal Summer School**

Yuliya Kazarina, APPDS-KRAD meeting,  
30.05.2018

# ISAPP-Baikal Summer School

- "Exploring the Universe through multiple messengers"
- will take place from July 12 to 21, 2018 in the village Bol'shie Koty (Big Cats) on the shore of the Lake Baikal
- 85 participants have already registered (56 students)
- weak signal network (there is practically no access to the Internet)
- we propose to use HUBzero platform as a social network for the School participants locally

# Baikal Summer School group:

- Overview (Information about the school: lecture program, timetable, organizing committee)
- Members (status, send a message, which can be duplicated to e-mail)
- Announcements
- Calendar
- Collections
- Forum
- Projects (study time, 4 groups of students leading by its own curator)
- Resources (presentation materials, articles, books)
- Wiki
- Wish list
- Files
- Activity

# The main steps for the School participant

1. To log in on the [astroparticle.online](http://astroparticle.online) (member profile information: affiliation, scientific area,...)
2. Join the group Baikal Summer School

6 School participants have already joined the group!

\* HUBzero supports mobile version

## Plans for nearest future:

The release at the 26th Extended European Cosmic Ray Symposium (E+CRS 2018):

- \* fill with content
- \* replace stubs with real content
- \* deadline: the beginning of the July
